- Coffee bean capacity: 180 gr
- Dump box capacity: 8 servings
- Water tank capacity: 1 l

Highlights

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Bean to cup system
It means that whole coffee beans are freshly ground and directly processed for each and every beverage.

Compact design
With this compact design, the full automatic espresso fits in every kitchen.

Double shot
With the double shot it is easy to serve 2 espresso's at a time.

Easy frontal access
All machine elements you need to reach during your day-by-day enjoyment (water, coffeebeans and coffee grounds container, drip tray, removable brewing group) are completely independent and reachable either from the front or from the top.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert – finished.
